

Paying for your parking or toll just got a little easier

DETROIT, Mich. (May 25, 2011) -- American Roads Investments has released two mobile applications that will allow travelers to pay bridge tolls and parking charges at any Alabama Freedom Pass® network facility. No more fishing for change, no more swiping your credit card- just punch in your location to pay.

This includes the:

- Emerald Mountain Expressway (Wetumpka, AL)
- Montgomery Expressway (Millbrook, AL)
- Tuscaloosa Bypass (Tuscaloosa, AL)
- Beach Express (Orange Beach, AL)

beginning June 1, 2011.

"With these mobile applications travelers can link their phones with an existing Freedom Pass account or bill a major credit card (Visa, MasterCard and Discover)," said Neal Belitsky, President and CEO of American Roads Investments. Using the device deducts the toll amount from pre-paid funds or charges users on the go. You can even have a receipt e-mailed to you after each use. Instant balance information is available for current Freedom Pass account holders.

The application also can be modified for any point of sale or prepaid toll or parking application and is available from American Roads Investments.

The applications are free and available in the iTunes (<http://itunes.apple.com/us/app/alabama-freedom-pass-mobile/id435124106?mt=8&uo=4>) or in the Android Marketplace (<https://market.android.com/details?id=com.americanroads>). Interested individuals also can download them at <https://freedompass.americanroads.com/mobile/>.
